DESIGNER CARRY ON

Meet your business-class seatmate: Precision crafted from the highest quality metals; super portable starting at 3.74 lbs. and less than 1-inch thin; all-day and into the night battery life. Each ENVY 13 notebook is individually crafted from aluminum and a magnesium alloy then artfully inscribed with a subtle design. Each is built with best-in-class components then individually tuned for maximum performance. Small touches that delight include:

- Metal Etching on magnesium for an elegant, laser-precise surface design.
- Slim Fit Extended-Life battery that conforms to the base for seamless visual integration.
- Touch-enabled HP Clickpad for intuitive navigation of apps.
- One-touch launch keys for fast adjustments to sound, brightness and more.
- Low-luminance LED indicators to reduce harsh glaring in darkened environments.
- Design-matched external optical drive with two USB ports to double as a dock.
- The full-version software you want for video development and more; nothing you don't.
- Instant On access to web browsing and email without having to fully boot.

SOUNDS LIKE FUN

The world-class Beats™ audio system offers crisp stereo sound with one-button bass enhancement to make your music sing. Its powerful audio profile is tuned specifically for ENVY's exceptional audio components and tested by Interscope musical artists. It provides amazing, crystal-clear sound, with deep controlled bass that can be accessed with a single key stroke.

LIGHT. BRIGHT.

The super thin-and-light HD Radiance display delivers vivid color quality, exceptional brightness, and a wide viewing angle which combined make it one of the world's best notebook displays. It extends to the edges of the top cover for a frameless look.

- **Unique Backlight Technology.** Ultra-compact color phosphor LEDs combined with traditional LED backlighting achieve an unmatched color depth and high brightness not available in any other compact notebook display.
- **Exceptional Color Gamut.** Uncompromised video experience with high-definition[8] resolution (up to 1600x900), outstanding color richness (82% color gamut) and very fast response time (8ms).
- **High Brightness.** Twice the average brightness of most notebook displays available (410 nit (HD) / 370 nit (HD+)) for easy viewing, even in high ambient light conditions.
- **Wide/Symmetrical Viewing Angles:** (60/50/60/60) for more flexible viewing options.

ALL JET. NO LAG.

Experience full-throttle graphics and superb performance. And up to ***XX*** hours of battery life[28] with included extra battery enough to keep you productive and entertained during your entire flight from LA to Sidney. Each aspect of the Envy13 architecture was carefully chosen to enable exceptional performance and battery life for the frequent traveler.

- **The HP ENVY Slim Fit Extended-Life battery** delivers up to ***X*** additional hours of life and sits flush against the underside in perfect harmony with the overall design (included).
- **The Intel® SL9000 series Core™ 2 Duo Processor** provides the power and benefit of two processor cores for multi tasking but minimizes heat and wattage to extend your battery life while away from home.
- **ATI Mobility Radeon™ HD 4330 graphics** with 512MB of DDR3 VRAM delivers premium graphics performance for visually intensive applications, DirectX® 10.1 games and HD[8] video playback. **ATI Switchable Graphics technology** dynamically switches (without reboot required) between the discrete graphics processor and the integrated graphics processor in real time to help provide exceptional performance and extend battery life.

YOU CALL. WE ANSWER.

[1] This system may require upgraded and/or separately purchased hardware and/or a DVD drive to install the Windows 7 software and take full advantage of Windows 7 functionality. See http://www.microsoft.com/windows/windows-7/ for details. [2c] 64-bit computing on Intel architecture requires a computer system with a processor, chipset, BIOS, operating system, device drivers and applications enabled for Intel® 64 architecture. Processors will not operate (including 32-bit operation) without an Intel 64 architecture-enabled BIOS. Performance will vary depending on your hardware and software configurations. See www.intel.com/info/em64t for more information. Dual Core is designed to improve performance of certain software products. Check with the software provider to determine suitability. Not all customers or software applications will necessarily benefit from use of this technology. [3] Intel's numbering is not a measurement of higher performance. [3a] AMD's numbering is not a measurement of clock speed. [4] GHz refers to internal clock speed of the processor. Other factors besides clock speed may impact system and application performance. [4a] Actual bus speed is less. Listed bus speed represents the equivalent effective throughput for data. [4b] This system requires a separately purchased 64-bit operating system and 64-bit software products to take advantage of the 64-bit processing capabilities of AMD technology. Dual/quad/triple-core processing available with AMD technology is designed to improve performance of this system. Given the wide range of software applications available, performance of a system including a 64-bit operating system and a dual-core processor will vary. [6d] Note that DVD-RAM cannot read or write to 2.6GB Single Sided/5.2 GB Double Sided – Version 1.0 media [7] 1 GB = 1 billion bytes. Actual formatted capacity is less. Up to 12GB of system disk is reserved for system recovery software. [8] High-Definition content is required to view high-definition images. [9] Actual speeds may vary. [10] Bluetooth is a trademark owned by its Company under license. [10b] Wireless access point and Internet service required and is not included. Availability of public wireless access points limited. [11] Maximum achievable download speeds are currently unknown, may not reach 56Kbps and will vary with line conditions. Upload speeds are less and also will vary. [12] Weight will vary by configuration. [15] Internet access required and sold separately. [19b] Internet access required. First 60 days included. Subscription required for live updates afterwards.
